

Braddock Road is Getting Safer*

**unless opponents who value street parking over safety can convince City Council to kill the plan*

Braddock Road is one of Alexandria's most dangerous corridors for people walking and biking. City staff spent years developing a solution — and they found one that works for everyone.

Improves
Crosswalk Safety

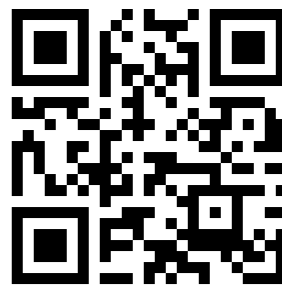

Connects Local
Bike Network

Maintains Vehicle
Travel Times

The plan passed Traffic and Parking Board unanimously, but opponents have appealed to City Council. They claim that the safety problems aren't real, that no one supports these changes, and that cyclists should just take longer out-of-the-way side routes instead.
